Retractable Shade and Insect Screen

Windows, covered balconies, verandahs and pergolas can provide fresh air, enjoyable views and outdoor spaces for entertainment and relaxation. But the potential of these areas is not often realised, as they become unusable when combined with harsh sun, constant breezes and flies and mosquitoes.

The Issey Flyloc provides the ultimate in external shading whilst doubling as a barrier against insects. An innovative reinvention of the common, fixed flyscreen, this retractable system comes in a large range of designer colours and acts as a windbreak! The fabric is locked inside the specially designed track which prevents the entry of unwanted insects or light into the area.

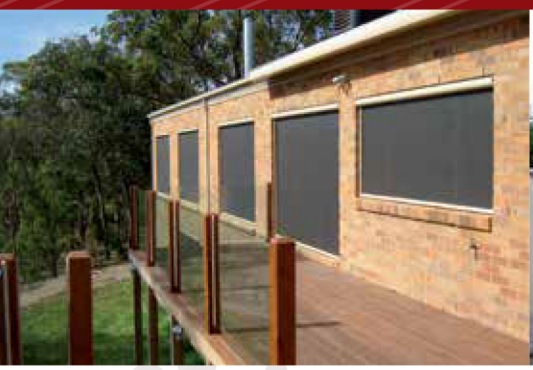
Our contemporary range of vertical screens is designed to give maximum protection to windows, doors, balconies and verandahs. The range of headbox sizes and the choice of guide systems allows for use over multiple applications such as:

- Windows & Doors
- Balconies & Verandahs
- Cafes & Restaurants
- Home Theatres
- Presentation Rooms
- Bedrooms
- Surgeries



Fabric

A wide choice of fabric is available to suit your unique situation.

- Screen 86% / 90% / 92% / 93% - When you have a beautiful view, selecting screen fabric will ensure the majority of heat, glare & UV are prevented while the view is maintained.
- Blackout - The Blackout fabrics have a 3-layer sandwich that is UV resistant, fire resistant, anti-static and 100% light blocking.

Flyloc Guides

Variety of tracks to suit application

Bottom Slat

Weighted Rectangular Tube 40 (h) x 20 (d) or 50 (h) x 20 (d)

Operation

The ability to retract the blinds gives you the power to control when and how much shade is required:

- **Manual Crank** - Removable external crank with handle attached to eye outlet
- **Motorised** - Somfy tubular motors that are hardwired to a switch or operated via remote control
- **BMS** - Easily integrates with Building Management Systems for convenient and versatile control

Framework

Aluminium frames
Galvanised fabric tube

Fasteners
