

SHADOWSPEC SERENITY™ & UNITY™

How to open the umbrella

Congratulations on your acquisition of a Shadowspec Serenity™ or Unity™ umbrella. Regardless of the model you have purchased, the opening and closing of the canopy follows the same easy process.

It's important to operate your umbrella with care, we have engineered the product to be easy to use and follow the path of least resistance.

vii.

1. Remove the provided canopy strap. (i.)
 - a. Store it somewhere you will remember
2. Locate the shadow glide handle and the lower hub with LED light
3. With one hand, push the hub in towards the mast. (ii.)
4. With your spare hand, depress the Shadowglide button. (iii.)
5. This will unlatch the mechanism and allow for deployment.
6. With care, push the Shadowglide up the mast. (iv.)
7. As the shadowglide moves up the mast, release the button and continue pushing the Shadowglide upward with the palm of your hand until it clicks into the top catch. (v.) (vi.)
8. Take note to do this action in one fluid motion for the easiest lift.

SHADOWSPEC SERENITY™ & UNITY™

How to close the umbrella

Closing your Shadowspec Serenity™ or Unity™.

When you're done enjoying the shade or the weather has begun to turn, retracting your Shadowspec Serenity™ or Unity™ Umbrella is quick and easy.

iv.

v.

vi.

1. Using the palm of your hand, push the Shadowglide handle upward. *(i.)*
 - a. This will take the natural downward pressure off the latch.
2. At the same time as pushing up, wrap your hand around the handle and depress the button. *(ii.)*
3. When you feel the latch release, move the Shadowglide down the mast to begin the closing process. *(iii.)*
 - a. You can now release the button.
4. Watch your head as the canopy comes down and be cautious of the pinch zone.
5. As the hub moves in towards the mast, place your spare hand on the far side of the hub. *(iv.)*
6. Apply some inward pressure on the hub, this will assist in the retraction. *(v.)*
7. As the Shadowglide arrives at the bottom catch, you'll hear a satisfying click.
 - a. This indicates the umbrella is now closed.
8. Check the canopy fabric isn't pinched in the frame
9. Secure the frame with the provided canopy strap. *(vi.)*
10. If you've purchased the optional protection cover, you can apply it now.
