INTRO

DISCOVER OUR SUPERB
ALUMINIUM SHUTTERS COLLECTION

Create the ultimate Outdoor Room by installing Coastal Series Shutters to close off the sides of your patio, sitting perfectly under your Louvretec Opening Roof.

Designed with coastal conditions in mind they are an excellent solution for sun, privacy, wind, rain and heat control.

Firstly choose your Shutter type:
Sliding, Bifolding or Hinged (including Plantation Shutters).

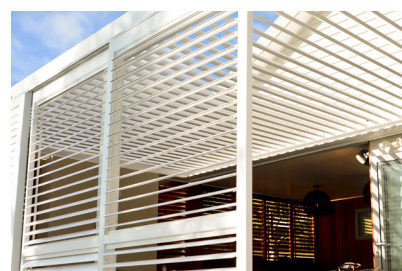

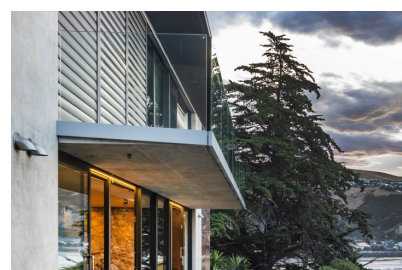

Now choose your Louvre infill type and application; Airfoil Louvres or Rectangular Louvres? Will your Louvre infills be fixed in place or adjustable?

We don't offer an out of the box Shutter solution - instead we custom make to your precise requirements.

Enhance your home, lifestyle and outdoor living space.

COASTAL BOTTOM ROLLING SLIDING SHUTTERS

FEATURING A LOWER CENTRE OF GRAVITY FOR HEAVIER PANELS

Louvretec Aluminum Shutters are available either Bottom Rolling or Top Hung.

Bottom Rolling Shutters have the advantage of not requiring structural fixing at the head or top of the opening as all the weight sits on the bottom track.

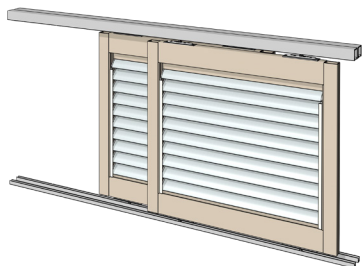

It is essential that the bottom track has solid level fixing, particularly with large heavy doors. This ensures easy fingertip operation when sliding open or closed.

Custom built to last in powder coated or anodised aluminum finish, all Sliding, Bifolding and Hinged componentry used, is manufactured using T316 Marine Grade Stainless Steel.

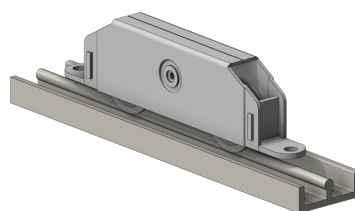

BOTTOM ROLLING SLIDING SHUTTERS

Coastal Sliding Shutters are a great solution for closing off your outdoor area while bringing privacy and stylish good looks.

BOTTOM ROLLING SHUTTERS HAVE ALL
THE WEIGHT ON THE BOTTOM TRACK

COASTAL TOP HUNG SLIDING SHUTTERS

EXTREMELY EASY OPERATION

Top Hung Shutters have the advantage of being held captive within the top track, keeping them secure and making them ideal for multi-story installations.

As the load is all on the top track, continuous solid fixing is required to ensure the Shutters at all times remain true and level.

A minimal bottom guide only is required.

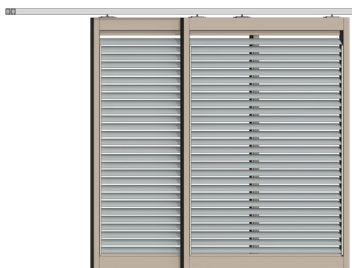

With our extensive range of Louvre shapes and sizes, Louvretec Sliding Shutters offer premium cost effective, low maintenance options for a wide variety of applications.

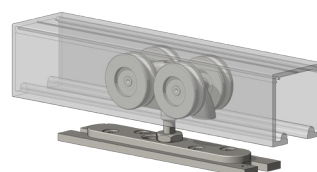

TOP HUNG SLIDING SHUTTERS

Top Hung Sliding Shutter panels are held within the top track so only a minimal bottom guide is necessary.

TOP HUNG SHUTTER MECHANISMS

COASTAL BIFOLDING SLIDING SHUTTERS

PANELS FOLLOW EACH OTHER AND STACK NEATLY

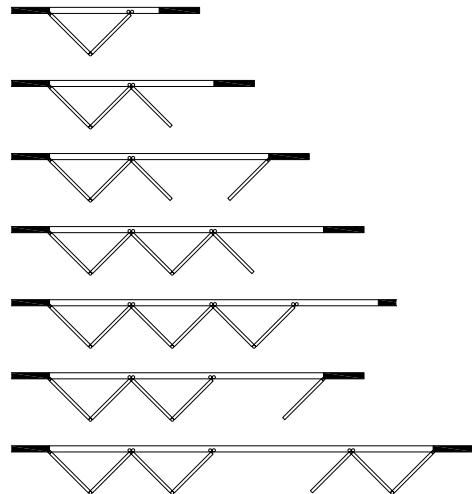

Bifolding Shutters have the advantage of neatly stacking to either one, or both ends, opening up wide, open spaces.

Being always top hung, Bifolding Shutters require continuous solid fixing at the head or top of the opening – especially so at the stacking points for the panels.

Due to the close stacking function of the Shutters most Bifolds use the smaller 90mm Airfoil Midi Louvre, or either of the two Rectangular 95mm Bella Vista Louvres – both are ideal.

There is a wide range of Bifolding configurations available:

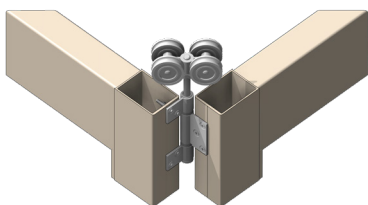

BIFOLDING CONFIGURATIONS

BIFOLDING SLIDING SHUTTERS

Maximise the light coming in to your home. Alternatively, when you require privacy enjoy adjustable control.

TYPICAL TOP HUNG DETAILS

COASTAL HINGED DOORS & GATES

AVAILABLE IN SINGLE OR DOUBLE DOOR PANELS

HINGED DOORS AND GATES

Bringing street appeal, strength, style, and security. Perfect for creating a welcoming, secure entrance for your space.

Coastal Hinged Doors and Gates can be inwards or outwards opening.

Hinged Doors are available as Standard, Heavy Duty or Ultra Welded.

STANDARD HINGED DOORS

COASTAL HINGED DOORS & GATES

Bringing added security, control and design to your home or building.

COASTAL HINGED PLANTATION SHUTTERS

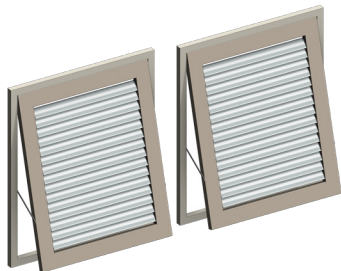

CAN BE OPENED EVEN WHEN IT'S RAINING

HINGED PLANTATION SHUTTER

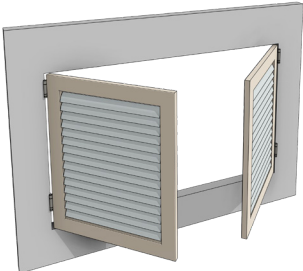

Enjoy light control and timeless design.

Coastal Hinged Plantation Shutters can open outwards from the top hinge to let in fresh air at the bottom of the shutter.

TYPICAL TOP HUNG DETAILS

They can also be side-hinged for greater Opening space. Plantation Shutters use standard Hinged Door extrusions and components.

TYPICAL SIDE HUNG DETAILS

Coastal Hinged Plantation Shutters feature "stays" to keep the Shutter in an open position for ventilation and security.
