

INSTALLATION STEPS

- Open the box carefully at one end using a box cutter & remove contents.
Ask a friend to assist. Take precautions using a ladder, and check before drilling pilot holes.
- Check & sort the box contents to ensure you have all the correct fittings.
- Remove the fabric curtain & place it safely away from the work area for later.
- Now decide if your track will be installed under a Reveal, or Face mounted?
- Remove the track end cover(s) by unscrewing the knurled round thumb screw.
There is no need to remove all the track sliders (x18). Be careful not to let any slide off the track.
- Measure your overall desired track length and cut the track(s) at the far end(s).
Avoid cutting the track(s) where a joiner will be required to ensure the curtains glide smoothly.
- Refit the track end cover(s) & Join tracks using the track joiner with Allen key.
- Mark your substrate with a pencil 50mm (2") in from the track ends, and 50mm (2") either side of any track joiner(s). Drill pilot holes (3mm - 1/8") where the track brackets are to be positioned, & screw fix the brackets with #6 fasteners.
If possible, refer to the installation video by scanning the QR code below for a visual reference.
- Clip weatherproof bracket covers onto Face brackets if used for installation.
- By hand, clip reveal brackets onto the back of track(s) in readiness to install.
- Clip weatherproof bracket covers onto Reveal brackets, only once completed.
- Clean your work area in readiness to bring your Curtain(s) over to the track(s).
- Place the length of the Curtain over your right shoulder, with heading in hand.
- Push the heading hooks into the track gliders and pull down to lock into place.
Only hook into the 18 track gliders, bypass the two odd gliders that act as a brake and for draw rods.
- Arrange Curtain heading inwards and outwards to form the wave pleat effect.
Hang your curtains from the building facing outward so the finished front of the curtain is inside.
- Mark your wall/post 120cm (48") up from ground to position the rope tie-back strap.
Warning: Tiebacks within 1m (39") of pool safety gates/fencing must be installed NO LOWER than 150cm (60") high from the ground.
- Screw tie-back strap and rope to wall/post with (316) suitable screws or aluminium rivets. Keep your zippered laundry bag somewhere safe for cleaning & maintenance.
Drape your curtains, get creative with knots, or pull your curtains high up off the ground to swag! Always follow washing instructions. Stuff the curtains in the bag rather than folding for best results.

SHADE | INSULATION | PRIVACY | UV SCREEN | SPF 50+ | WASHABLE | OUTDOOR

Thank-you for purchasing Surf Outdoor Curtains™. Made in Australia for backyards everywhere!

We've been producing Curtain systems for over 35 years! Our Alfresco Wave Pleat Curtain fabric and outdoor track system have been engineered like no other. Our linen look UV resistant sheer panels are designed to withstand the rigors of constant use without compromise, making it the perfect choice for interior or sun covered outdoor areas.

If you want something that can stand up to Mother Nature - Alfresco Sheer drapery panels have been designed to be machine washable to inhibit the growth of bacteria, mold, and mildew. The performance and durability of our solution dyed outdoor linen look sheer curtain panels are further enhanced with molten fiber colored polymer spun yarn (Not Dyed) to minimize UV degradation and repel moisture. Alfresco yarn will not break down for your outdoor comfort and peace of mind.

Surf Outdoor Curtains™ aluminum track system is extruded from non-corrosive materials, suitable for harsh environments including high humidity, subzero to 45+ degrees, including high humidity areas and beach front properties. The sturdy, sleek all Aluminum track profile is commercial grade, and supplied with discreet track joiners to create a bespoke fitted look for even the widest of areas.

■ Surf Outdoor Curtains™ | Product Overview

POOL AREAS

*DO NOT Install Surf Outdoor tieback below a minimum height of 150cm (60") above ground when in proximity <1m of pool safety gates/fences.

*DO NOT Install Surf Outdoor Curtains on more than 3 sides of an area surrounding a swimming pool, or in front of any pool entry/exit gates. Pool entry/exit gates must be always visible. A pool safety officer should be consulted to approve any/all installations in swimming pool areas for safety compliance.

All/any necessary Permission(s) must be obtained by all person(s) prior to installation of any/all Surf Outdoor Curtain products where applicable, and only installed with the authority of any/all necessary private, business, body corporate, regulatory bodies, pool safety inspector, or your local authority if subject to planning or when considering pool safety or fire regulations. YOU MUST check & comply with all/any local or State authorities regarding all/any health, safety, pool and fire regulations. You may be committing an offence by failing to comply with Pool or fire safety or regulations. Always consult a pool/fire safety inspector to obtain advice and obtain a pool safety certificate following installation.

Disclaimer: We have used our best endeavors to ensure the accuracy of this information, however we accept no responsibility and disclaim all liability in respect of any errors, omissions, inaccuracy, or misstatements that may occur. Any interested person or prospective Buyer must make their own enquiries to satisfy themselves of this information.

Exclusion Clause: Scotch Holland Pty Ltd is not liable for damages or any injuries sustained resulting from the usage of the product inconsistent with the warnings in the product overview, including but not limited to installing the product where not permissible, or inconsistent with authorities in USA/AUS/NZ

■ Surf Outdoor Curtains™ | Product Warranty

Within 30 days of purchase: Contact the original seller for repair or replacement.

Within 12 Months of purchase: Contact Scotch Holland Pty for repair or replacement

This warranty is given by Scotch Holland Pty Ltd (Australia) who offer a 1-year limited warranty. All claims for defective goods including fabrics must be reported within 30 days of purchase. It is the responsibility of either the consumer or the installer(s) to check all goods are complete and made to specifications without fault or damage at time of installation or within 30 days of purchase. Scotch Holland Pty Ltd accepts no responsibility for third party claims incurred beyond this point.

The warranty covers manufacturers defects in materials, workmanship, and normal use. You are entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure. The warranty excludes damage resulting from product misuse or product neglect. Third party claims for unauthorized warranty claims will not be honored.

Please keep your receipt as proof of purchase, as this will authenticate your warranty. Any claim must be within the warranty period(s) stated from the date of purchase.

Note: This statement does not affect statutory rights under current Australian/NZ or USA consumer laws.
